

Creation...or Chance!

The world has gone wrong. People have forgotten the true basis for a happy society, and have traded the acceptance of a loving Creator for the materialism and hopelessness of a life based on "mere chance." Yet evidence abounds to prove that God does exist and controls the marvellous universe in which we live. Further, the existence of God testifies that the record He has provided - the Holy Bible - can outline the reasons for creation and the purpose of life. Thus, belief in a divine creation holds the key to happiness, and hope. It is only those who honestly and sincerely take the Bible in their hands, and examine its claims, that will benefit from the beauty and harmony of the universe. Examine this booklet, we recommend that you read it right through to obtain a general view of the subject, and then carefully re-examine it, checking the Bible references quoted. We believe you will find it interesting, and it may bring into your life real meaning and purpose.
