

The Arabs in Bible Prophecy

The Arab world has been brought prominently before the public by the Arab-Israeli antagonism of the last 60 years, the drawn-out Iran-Iraq war of the 1980's, the two gulf wars, and the continuing trauma of the international energy problem. Unknown to most, however this is playing an important part in the development of a world crisis that will culminate in the return of the Lord Jesus Christ, the battle of armageddon, and the ultimate re-establishment of the kingdom of God on earth. Bible prophecy reveals that the Arab peoples are to play a prominent part in the future purpose of God. These matters not only concern world politics, but are of vital importance to your own individual salvation. This booklet outlines some astounding Bible prophecies which are coming to pass before your every eyes!
